

Chumree-uhp soo-uh
(Hello in Cambodian Language!)

Can Digital Unify bridge the gap which exists in the history of Cambodia? PROBABLY NOT!!

An era of Angkor Wat(an architectural allegory of the Hindu religion) and The Khmer Rouge, led by Pol Pot (killed close to 1.7 million people in the mid- to late 1970s) will take hundred years to bridge the GAP which exists in silent streets of Cambodia, but for sure ST Foundation ,Digital Unify program thru Don Bosco is a great initiative towards the unification

Till yesterday I was in the impression that Indians are one of the most religious, humble, and down to earth, service oriented people but my visit to Cambodia shook this belief to some extent and I developed love for a 'silent' yet passionate country called Cambodia.

Digital Unify, a program I joined almost 5 years back with just one drive 'Pay back my thanks to my company and country' thru little services. A program which theoretically may still look like a dream but every small step we take towards our goal brings a sense of satisfaction, love & affection for humanity and I believe more in this CORPORATE RESPONSIBILITY initiative of STMicroelectronics.

Today we live in VIRTUAL INTERNET WORLD where with a click of button distances are covered but there are many parts of world where people are unaware of the potential of Electronic dragon called COMPUTER and DIGITAL UNIFY Program @ DON BONSCO Cambodia is a BIG STEP towards the change ST Foundation wants to drive.

Don Bosco Foundation of Cambodia is the DRIVER FOR DIGITAL UNIFY and Fuel in this engine is sponsored by STFoundation.

With support of Kunal, ST ICB Trainer, we conducted 3 day course in Cambodia and 25 new Informatics & Computer Basics trainers are made and out of which 5 are ready to shoot like stars & start the ICB trainings.

All the best to ST Foundation & thanks to Bianca, Lino (X-ICT employee) & Father Leonard of Don Bosco Cambodia to give us this opportunity to plant a seed in soil of Cambodia which when will BLOSSOM leads to many FRAGRANCE around of learnings.
