

A testimony from one of our partner

My name is Giuseppe and I am in charge of “Insieme Onlus”. It is a volunteering association working on the promotion and recovery of fragile people. This year we have been delighted to begin a new initiative with the ST Foundation. To start the initiation course, we chose people living in difficult conditions who felt cast aside by society. When they came in our class, we saw something incredible happen, they were able to find a new dimension. People who were really on the margins, now have been requalified through the course. You can see joy and happiness in their eyes because they had an opportunity to feel different. This experience changed some of the participants’ approach to life, turning them into more motivated people.

Giuseppe, representative of Insieme Onlus, Italy

In 2019 substantial digital divides persist between and within countries and about half of the world population cannot access and use the Internet. Within this context the Foundation

continues its hard work bridging the Digital Divide and its now glad to present the [2019 Annual Report](#) where it will tell you the journey and results achieved

16 years in the field & 15 active countries over 729,865 lives touched with our initiatives since the inception

The Foundation would also like to thank all of YOU for your constant support and commitment. Digital Divide is still strong but together we can be stronger.

Many interesting new projects are in the pipeline for the coming weeks and we will need again your energy and collaboration.

See you soon!

The meaning of life is to find your gift.

The purpose of life is to give it away! William Shakespeare
